

TRUE COLOURS

*EACH PIECE IN FABERGÉ'S
EMOTION COLLECTION IS
A WORK OF ART IN
SPECTACULAR SHADES*

WHILE FABERGÉ is famous for its spectacular eggs, at the heart of the company is emotion — passion, love, joy and delight. The Emotion collection is based on all four, paying tribute to the renowned Frédéric Zavy, Fabergé's first designer since the Russian Revolution and the artist-jeweller behind the company's rebirth.

Taking the colour-drenched style of bold, modern Fauvist paintings as a template, the Emotion collection is a contemporary work of art covered with intense, colourful gemstones — as many as 300 on a single ring. Fabergé's link with responsibly sourced gemstone mine Gemfields provides Mozambican rubies and Zambian emeralds as a palette for abstract compositions and blocks of colour.
